

Ark John Keats CEIAG Provision 2020-21

Our vision for Raising Aspirations: AJK alumni will have the ability to make informed, aspirational careers choices that will lead to them becoming happy and successful adults.

Aims of the Raising Aspirations programme:

- Ensure that students go to a good university or into a career of their choice
- All students received individualised guidance to make choices that are aspirational and will make them happy
- Expand students' horizons in exposing them to new ideas, views and activities

Despite the limitations placed on our normal ways of working this academic year, we have managed to provide students with a wide range of opportunities to ensure the above aims are met. The table below outlines the activities planned for 2020-21.

Autumn	Spring	Summer
